

## Necessary Objects

Brave Matter's first accessories collection is characterized by brave silhouettes and evocative material finishes. Uniting ceramic with wood we create utilitarian objects that are equally resolute and ethereal, visceral and reflective.

Necessary Objects is a collection of utilitarian vessels inspired by the mechanisms of desire—motivated repetition; synaptic patterns reinforcing themselves over countless repeated occasions.

## Necessary Objects × Service

Comprised of a carafe, teacup, and jars—these vessels are impeccably made of slip cast ceramic and sandblasted ash wood tops, in a selection of hand-blended terrestrial glazes.

Nuanced and timeless. Kombu, Kaolin and Ochre combine soft earth mineral colors with a robust stoneware body. Twilight is a glimmering metalized glaze paired with hand-charred blackened wood.
